EDITORIAL

by P. Wijngaarden

On 18/19th, May, the Queensland Federation of Bushwalking Clubs held its first Track Clearing Weekend at Binna Burra. 29 People attended representing 5 member clubs, the largest contingents coming from N.P.A., Binna Burra Bushwalkers and ourselves. Some Clubs were not represented either because of prior arrangements, or on policy grounds.

On the Saturday, perhaps 2 miles of the old Bimboola Lookout graded track above Illenbah was cleared to about 2/3 of the way up to a point on a grassy ridge providing easy, direct access to the top. An alternative route is via a graded track running parallel to the river, ending in clear private property through which one would have to pass to gain the top via a ridge running approximately north/south. Accordingly, there appears little justification for supporting the tentative proposal to do more work on this track as the people in need of graded tracks are unlikely, as a rule, to take on this additional section as Illenbah, itself, is more than 6 miles from the Lodge.

Cont'd...

Sunday's work involved clearing an existing one mile blazed trail from Binna Burra to Split Rock, on the edge of the Coomera Gorge. This was quite a worthwhile task and more goodwill is likely to accrue to the Federation as a result, than from the work done on the Bimboola Lookout track, as it has considerably more potential for consistent use by the general public as well as bushwalkers. However, how is the public to know that the Federation did the good deed of re-opening the track?

There exists no unanimous support from member clubs for the idea of organised track clearing. Some clubs favour it strongly, most are less sure, and, at least one opposes the practice. The attitude taken depends on the weighting given to the factors involved which weighting, in turn, varies with inherent attitudes, partly based on age and environment.

Track clearing implies re-opening of existing tracks to places of interest, for the benefit of whoever should wish to go there, but, primarily, bushwalkers. However, this should not be interpreted to result in the wholesale opening up of a few of such tracks but, rather, to clear it to the extent necessary to provide a reasonably clear route to the destination sought.

Federation must ensure that the work of its volunteers does not encroach on work which is the responsibility of the Forestry Dept. or else risk losing their support. Perhaps some may argue this is not of great importance as work done, which might otherwise have been left to the full time Forestry staff, would enable them to work on other tracks to the benefit of all.

Some may look on track clearing as an exercise in conservation of our parks by providing clear tracks rather than having people making many individual routes resulting in a maze, as exists in the Lost World.

Others may argue that, if a track is little used, there may be no worthwhile object of interest as its end or, a more suitable route exists. The underlying premise here being that bushwalkers will keep open, through use, the tracks that they really want to.

Cont'd...

Some fear that, by going out of its way clearing tracks, Federation will cause some of the challenge and appeal of bushwalking to be lost. This may have some validity to those who habitually return from a trip very late and have no worry about having to turn up for work on time, but, while the number of track clearing weekends are limited and care is taken in choosing the tracks to be worked on, this fear is not likely to have much foundation.

The weekend at Binna Burra was quite an enjoyable one little different from doing a solid trip involving some scunge bashing.

Through this discussion, it is hoped that members will be able to form relatively informed opinions on the relative merits of the various arguments, and that they let their opinions be known at the General Meeting or to a Committee Member so that the club's attitude can be determined with knowledge of the general attitude of the members.

COMING EVENTS IN MORE DETAIL

LONG WEEKEND 7-10TH. JUNE / BASE CAMP-THROUGHWALK / DOUBLE TOP AREA:

Mt. Double Top is a 3,700 foot mountain just south of Spicers Peak on the Main Range.

The Base Camp is expected to be on Swan Creek, while the throughwalk may commence at the junction with Hell Hole Creek.

Various abilities/inclinations as to bushwalking will be catered for.

From the Base Camp, Mike expects to make his trip long and hard, whereas the trips Therese will lead will be of medium difficulty. All will visit Hell Hole Creek, Double Top and other points of interest during the weekend.

The throughwalk will be done without a pre-outing but is expected to be quite lengthy. Tentatively, it is proposed to follow Hell Hole Creek up Double Top, then to Huntley and Asplenium, and to the Base Camp for Mass on Sunday afternoon. A suitable return route to the cars will be taken.

Father Aspinall is making a special trip to celebrate Mass at the Campsite at approximately 3 p.m. Sunday. Members are to join in singing of hymns to folk tunes.

P.S. The pre-outing has now been done and those attending are in for a really beaut weekend. The views are magnificent and the country for the most part very pleasant open forest. Do come and let Mike know straight away that you are coming.

Under General Business, discussion is invited on (1) The editorial on track clearing by the Federation. (2) Committee resolution "that a concert not be held as a separate social, but rather that a few items be presented at the Christmas Party". In particular, discussion is invited on the form these items should take. One suggestion that has received favourable comment is to have a Review with a bushwalking theme. The Committee resolution was

Despite road widening operations at the Gap, Mt. Mitchell still stands and one party on this day walk will be aiming at climbing both this peak and Mt. Cordeaux (not an impossibility considering the graded tracks).

However, the main party will most likely concentrate on Mt. Cordeaux with a possible extension to Morgans Look-out to view the Ramparts.

This is an ideal day walk for this time of the year and is recommended for healthy, vigorous exercise. it provides as well as the magnificent views.

CLUB NEWS

Congratulations are extended to the following who were elected for form the Social Sub-Committee at the May General Meeting:-

John Elliot, Brian Hanvin, Pat Ebert, and Tony Crowley; Bev Gibson, Jenny Cushing, Kathy Boyle and Anne Davis. Thanks are due to all who accepted nomination.

A formal move is expected to be made at the June General Meeting to amend the Constitution. Debate and formal consideration of the amendments will thus take place at the July meeting.

The basic amendment involves a new section 12 (viii) defining "financial members" for the purposes of the section to include Prospective Members. The same interpretation is to be applied to their nominators, seconders and to the people entitled to vote at Social Sub-Committee elections.

This interpretation has, in fact, been applied in practice in the past and is further in line with the appointment power of Committee with regard to Sub-Committees. In addition, by including "by secret ballot" in section 12 (if the redundant parts of Section 21 can be deleted by deleting reference to the Social Sub-Committee

It is appropriate that the first contribution should have come from Jim Collins. He has written:-

"WOT NO SURPRISE PEAS: WOT NO FIRE LIGHTING INSTRUCTIONS.

Variety is the spice of life. So I'm sure many other members will be also browned off if we have a recipe as a main feature of the circular every month. Could I believe once every three months once. Cooking lessons.
