Every Easter we take a bus to a place which we could not otherwise visit. In previous years we have had successful trips to the Carnarvon Gorge and Blackdown Tableland and at the moment plans are well advanced for this Easter's trip. The Colo River flows through deep gorges and is a wilderness area.

Fr. Noel Hackett will accompany us on the walk and we are very pleased to have him join us again this year. A bus will need to be hired in early March and so nominations will start being taken at the next meeting. Please nominate early. More information will be given at the next meeting.

PAST OUTING-PETER'S CREEK OVERNIGHTER
5/1/80

John Hood leading.

After attending the 6.30pm. Mass 13 walkers assembled outside the Cathedral for the first walk of 1980. Our party included three visitors: John Cashman, John Moran and Joseph Ebbage.

Promptly at 7.45pm. we headed off for Maleny arriving there at 9.30pm. After a short break we were off again, in convoy, to our campsite. The only incident to mar the journey was my missing the campsite. The mistake was quickly realised, however, on returning we found the site already occupied and we were forced to drive back up the road till we came to an alternative campsite. Here we erected tents in a slight drizzle. Under a large tarpaulin we were able to brew a billy of tea and have supper before retiring.

Next morning the rain was still coming down lightly as we walked down to the proper campsite and headed down the ridge to the Breadknife. The Breadknife is a large formation of rock rising from the creek bed at the junction of the Booloomba and Bundaroo Creeks. It is a very interesting spot with good swimming holes and is well worth visiting on a fine day. We proceeded up Booloomba Creek and before long we were heading up Peter's Creek

Walking was slow as the rocks were slippery from the rain and the creek was up slightly. For some of the time it was much easier to walk through the water rather than bash through the rainforest, which grew right down to the water's edge.

We had planned to get back to the Breadknife by lunch time, so for expedience's sake we left our packs and lunch behind. By the end of the Peter's Creek section of the walk we realised that we would be having a late lunch.

Here we crossed over a ridge for the return leg. By this time everyone was well and truly soaked so walking through the creek up to waist depth was no obstacle to us.

The rainforest was very pretty and grew high up the slopes of the ridge which bordered the creek. The canopy was so thick, at times it completely prevented the rain passing through. At this point our party split up with the more energetic walkers streaking ahead. On returning to the Breadknife we all agreed to forego our swim in favour of some dry clothes, so despite not having eaten since breakfast we headed straight back to the cars where we changed into dry clothing and enjoyed a well-earned lunch at about 4.00pm.

After lunch we packed up and drove back to Brisbane, arriving home safely by 8.00pm.

LETTER TO THE EDITOR

DEAR EDITOR,

We would like to say thank you to the readership of Jilalan for the many good wishes we have received on the occasion of our marriage.

RUSS & JAN.

Dear people,

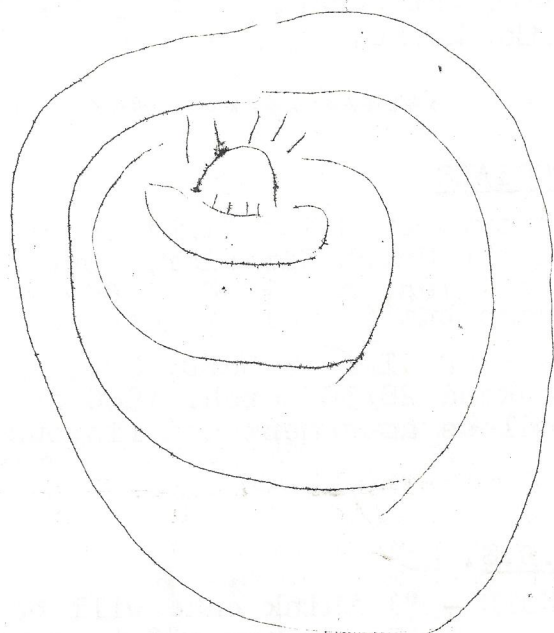

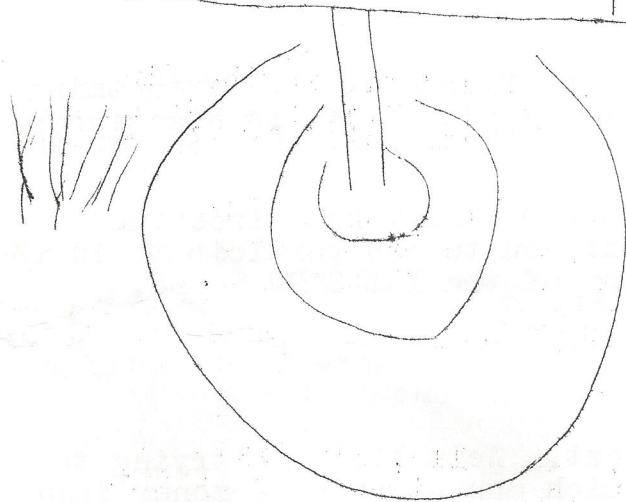

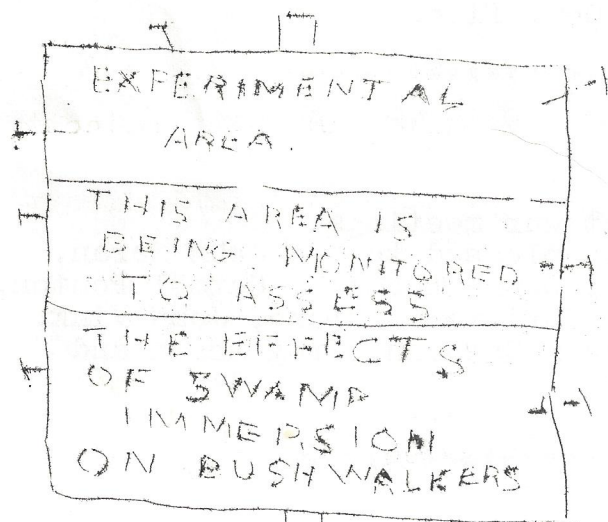

this is the first letter to the editor in three months I ask myself, "Why are they so shy?" No answer comes. So today I am appealing to you for correspondence. There is no need to worry that your letter won't be interesting enough because if it isn't I will put in some juicy items and some chunky bits to bring it up to scratch. Also you needn't worry about spelling mistakes because the readers of this work of art have the same average I.Q.'s as the horses in the Light Brigade. Letter writers are assured of complete anonymity but I will also make you infamous if you indicate in your letter that such is more to your like.

If you are a poet like my humble self or only a mere limerick writer like Paul Mullins your contributions are most welcome. But scandal is always best; if no one has any business knowing about something then it should appear here, so send it to me.

Michael Cashman. (P.S. To the writer of that letter about the 4B meter, I give up, tell me who you are-OR ELSE)
